## *WiFi*

CONTROL YOUR  
AIR CONDITONER  
WITH MOBILE!

**AirPatrol WiFi connects to your home WiFi network and lets you control your heat pump or air conditioner from anywhere using your smartphone!**

It enables you to adjust the mode, room temperature and fan speed of a heat pump.

**Save Money, Gain Comfort!**

### **SAVES MONEY**

Cool or heat your house only for the period when you're at home and turn it off when no one is around.

### **MAKES LIFE COMFORTABLE**

Never again arrive to a cold home. Adjust the room temperature to perfection prior to arrival or set up automatic time cues.

### **STAY INFORMED**

With AirPatrol, it's easy to check the room temperature and humidity from anywhere. It even let's you know when temperature drops too low or rises too high.

### **EASY TO SET UP**

Installation takes just a few minutes and it works with all major heat pumps, air conditioners and smart-phones.
