

CONTROL YOUR
HEAT PUMP
WITH MOBILE!

AirPatrol is an innovative heat pump controller you operate with your mobile phone.

It enables you to adjust the mode, room temperature and fan speed of a heat pump. AirPatrol can also inform you about low and high indoor room temperature, power failures and service intervals.

The Smartest Of Its Kind!

SAVES MONEY

Cut your heating costs! Warm up your house for the period when you are at home and let it cool down when everyone's away.

MAKES LIFE COMFORTABLE

Instead of driving all the way home to adjust your heat pump you can send your commands by mobile phone, no matter where you are.

EASY TO SET UP

Just install the SIM card on your AirPatrol, place it anywhere near the heat pump, and you are set!

NORDIC FEATURES

Receive alarms and notifications to get some peace of mind.
